

Alex Saunders

Profile

I am a hard-working and detail-oriented graphic designer and aspiring computer scientist/software developer. In addition, I am a UCF Coding Boot Camp graduate passionate about learning, researching, and writing code while I continue my pursuit of a bachelor's degree in computer science. I also freelance in video creation and Photoshop and have been doing it for multiple years. I look forward to finding an opportunity to take my programming and design skills and experience to a company where I can continue to learn and grow in these desired fields.
